Docket No. 1232-5077**REMARKS**

Applicants respectfully request reconsideration of this application in view of the foregoing amendments and the following remarks.

Claim Status

After entry of the foregoing amendments, claims 1-3, 5, and 7-11 will be pending in this application, of which claim 1 is independent in form. Claims 4, 6, and 12 are canceled herein without prejudice or disclaimer. Claim 1 is amended herein by adding the limitations of former claims 4 and 6. Claims 8 and 9 are amended herein to depend from independent claim 1. No new matter is added by these amendments.

Double Patenting

Claim 9-11 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 5, 7, and 9 of copending Application Serial No. 10/422,537. Applicants respectfully disagree with the characterization of the claims and prior art in the stated rejection and respectfully traverse this rejection.

Amended independent claim 1 defines subject matter that is patentably distinct from claims 1, 5, 7, and 9 of copending Application Serial No. 10/422,537. Claims 9-11, which ultimately depend from amended claim 1, are believed to define patentable subject matter for at least similar reasons. Accordingly, Applicants respectfully request reconsideration and withdrawal of the double patenting rejection of claims 9-11.

Claim 12 is provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over either claim 18 or 20 of copending
